DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4, 14-16, 17 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by PCT Application WO 90/00244 issued to Schricker. Schricker discloses a tube-launched projectile for piercing armor comprising: a first motor 24; an acceleration rocket 22; and, an armor-piercing rod 16.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 5-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Schricker in view of Luttrell. Schricker discloses a tube-launched armor-piercing projectile as described above. But, Schricker does not disclose the advanced projectiles claimed by the applicant. However, Luttrell discloses a rocket propelled cluster weapon 10 including advanced projectiles 15. At the time of the invention, one

Art Unit: 3641

of ordinary skill in the art would have found it obvious to provide the projectile of Schricker with the advanced projectiles of Luttrell. The suggestion/motivation for doing so would have been to pre-disable any protective armor features an enemy target may possess thus rendering it capable of being completely destroyed by the following armor-piercing rod.

5. Claims 9-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Schricker and Luttrell and in further view of Jacobsen. The combined projectile of Schricker and Luttrell is described above. But, neither Schricker nor Luttrell discloses the electronic system claimed by the applicant. Jacobsen discloses a device for a missile or the like comprising a gyroscope, a battery, electronics, control members, signal receivers and tracers (col. 1, ll. 10-65). At the time of the invention, one of ordinary skill in the art would have found it obvious to provide the combined projectile of Schricker and Luttrell with the electronic system of Jacobsen. The suggestion/motivation for doing so would have been to provide the provide with evasive maneuvering capabilities in response to detection by opposition surveillance devices.

6. Applicant's arguments with respect to claims 1 and 14 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
